

SC/ ST CELL

The Indian Constitution has identified Scheduled Castes and Scheduled Tribes as the two most backward groups of Indian Society. They include all such castes, races or tribes, which have been declared as scheduled castes and scheduled tribes by the Constitution of India under the provisions of Article 341 and 342 of the Constitution of India. Scheduled Castes generally represent those communities, which have suffered from the stigma of untouchability in one form or the other. Scheduled Tribes are generally those who have been living in seclusion in hills and forests, more or less untouched by modern civilization and development. Scheduled Castes constitute about 15 per cent of the total population of the country while Scheduled Tribes constitute about 7.5 per cent of the total Indian Population. Thus, together, these groups constitute a little more than one fifth of the total population of the country.
