

ACTIVITIES TO INCREASE CONSCIOUSNESS ABOUT NATIONAL IDENTITIES, RIGHTS OF INDIAN CITIZENS AND OTHER CONSTITUTIONAL OBLIGATIONS

YOUTH PARLIAMENT

Our students have been attending youth parliament sessions regularly and achieving successful results too. But more than that they are getting to understand the constitutional rules and obligations as well as citizens' rights in the process.

NATIONAL VOTERS DAY (25TH JAN, 2018) CELEBRATION: A REPORT

In order to encourage greater number of young voters to cast their votes in the elections, [Government of India](#) decided to celebrate January 25 every year as "National Voters' Day". At our college a lecture cum interactive session was organised on 25th January, 2018 to address the issues and concerns of new voters and the significance of participation in the electoral process of world's largest democracy. Our principal attended the session and said a few words about the role of the first time voters in changing the Indian socio-political scenario. The mock-parliament sessions are attended by the students and they also participate in inter-college YOUTH PARLIAMENT competitions. That gives them first-hand knowledge about the processes in Indian democratic set-up and the role of opposing viewpoints in the decision making of the government. In the talk, the emphasis was put on "inclusive and participative participation" in the election processes. The students present at the seminar asked their questions and sounded optimistic about the system which encourages them to exercise their electoral choices in a free and fair manner.
